

INTRODUCTION

SafeGuard SA

From Reported Danger to Verified Protection

- A safety-first platform for neglected public infrastructure
- Helps communities report dangerous situations

Safety Near You

THE PURPOSE

Why SafeGuard SA Matters

- Improves public safety in our communities
- Identifies and addresses dangers in public spaces, such as:

Open manholes

Damaged roads

Broken infrastructure

HOW IT WORKS

From Reporting to Protection

1

Report

- Community members report dangerous infrastructure

2

Record

- Field teams inspect the reported problem
- They record their actions

3

Verify

- Safety inspectors check the evidence
- They confirm whether the danger has been addressed

4

Protect

- The platform tracks progress towards safer public spaces

THE MAIN GOAL

Building Safer Communities

SafeGuard SA aims to:

- Identify public safety hazards
- Encourage community participation
- Improve accountability
- Track repairs and safety measures
- Ensure safety actions are verified by qualified inspectors

CONCLUSION

Safety Near You

- SafeGuard SA connects reported dangers with documented action and verified protection
- Main goal: safer communities
- Public infrastructure hazards are not only reported, but also properly addressed and checked

SafeGuard SA: Report the danger. Verify the protection.
